

WHY PRICE GRILLES AND DIFFUSERS?

PRICE | GRILLES & DIFFUSERS

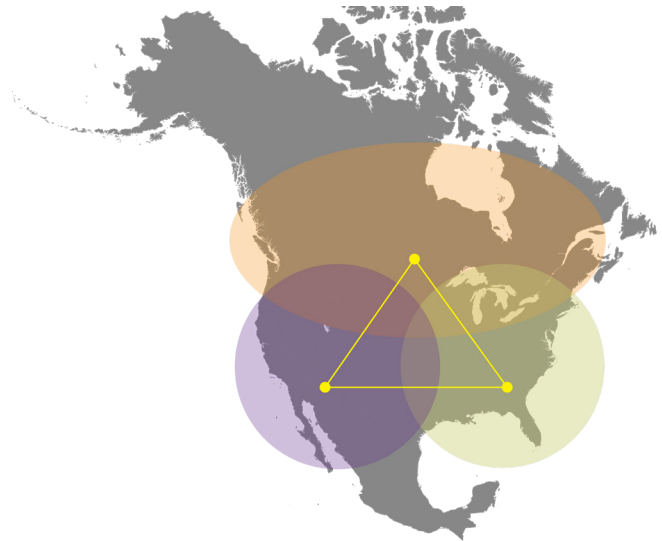

Top Lead Times and On-Time Delivery

With standard GRD lead times of less than three weeks and expediting options as quick as two days, Price is ready to deliver GRD products quickly and reliably.

Far-Reaching Network of Factories

Price's strategic network of factories serves all regions of North America. Our commitment to continuous improvement, advanced manufacturing and vertical integration keeps our facilities operating at the highest level.

Solutions for Every Application

Price's extensive GRD product offering provides solutions for even the most unique air distribution applications. Price provides the flexibility to integrate inlets and outlets into any space, with customizations available for all standard GRD products.

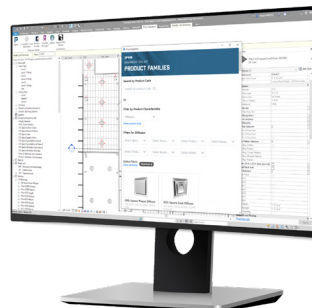

Research and Development

With 29,000 square feet dedicated to research and development and with project mock-ups available to verify the design of complex spaces, Price has the facilities and expertise to achieve any project's air distribution goals.

Engineering Software Tools

Price continuously strives to connect with designers, installers, and end users. Cutting-edge software, including tools for Excel and Revit, communicates the latest product information to those who need it.

THE BEST TEAM YOU'LL EVER WORK WITH

Contact Our Product Application Support Team

Price's commitment to service underscores all that we do. From system design and product selection to order processing and field support, the Price GRD team is ready to support you every step of the way.
